v_133	X.HB12b		

1	Never
---	-------

2	Seldom
---	--------

3	Sometimes
---	-----------

4	Usually
---	---------

5	Always
---	--------

To what extent do you agree or disagree with each of the following statements? (Please mark one answer in each row): (q_10694992 - Typ 311)

Variablenname	Externer Variablenname	int	Most people can be trusted
v_136	X.HB13		

1	Strongly agree
---	----------------

2	Agree
---	-------

3	Undecided
---	-----------

4	Disagree
---	----------

5	Strongly disagree
---	-------------------

Variablenname	Externer Variablenname	int	One can be a good manager without having

v_137	X.HB14		precise answers to most questions that subordinates may raise about their work
		1	Strongly agree
		2	Agree
		3	Undecided
		4	Disagree
		5	Strongly disagree
Variablenname v_138	Externer Variablenname X.HB15	int	An organization structure in which certain subordinates have two bosses should be avoided at all costs
		1	Strongly agree
		2	Agree
		3	Undecided
		4	Disagree
		5	Strongly disagree
Variablenname v_139	Externer Variablenname X.HB16	int	Competition between employees usually does more harm than good
		1	Strongly agree
		2	Agree
		3	Undecided
		4	Disagree
		5	Strongly disagree
Variablenname v_140	Externer Variablenname X.HB17	int	A company's or organization's rules should not be broken even when the employee thinks it is in the company's best interest
		1	Strongly agree
		2	Agree
		3	Undecided
		4	Disagree
		5	Strongly disagree
Variablenname v_141	Externer Variablenname X.HB18	int	When people have failed in life it is often their own fault
		1	Strongly agree
		2	Agree
		3	Undecided
		4	Disagree
		5	Strongly disagree

14 Seite: Patriotism (PGID 6540922)

We all should be willing to fight for our country, whether it is right or wrong.
(q_10695006 - Typ 111)

Variablenname	Externer Variablenname	int	X.P1
v_142	X.P1		
		1	completely agree
		2	mostly agree
		3	mostly disagree
		4	completely disagree

15 Seite: Financial literacy (PGID 6540923)

The next couple of questions include some tricky ones, but please try your best. We start with some questions about finance: Suppose you had ₹ 100 in a savings account and the interest rate was 2% per year. After 5 years, how much do you think you would have in the account if you left the money to grow? (q_10695058 - Typ 111)

Variablenname	Externer Variablenname	int	X.F1
v_144	X.F1		
		1	More than 102₹
		2	Exactly 102₹
		3	Less than 102₹
		4	Do not know

Imagine that the interest rate on your savings account was 1% per year and inflation was 2% per year. After 1 year, how much would you be able to buy with the money in this account? (q_10695061 - Typ 111)

Variablenname	Externer Variablenname	int	X.F2
v_145	X.F2		
		1	More than today
		2	Exactly the same
		3	Less than today
		4	Do not know

Please tell me whether this statement is true or false. "Buying a single company's stock usually provides a safer return than a stock mutual fund." (q_10695062 - Typ 111)

Variablenname	Externer Variablenname	int	X.F3
v_146	X.F3		
		1	True
		2	False
		3	Do not know

16 Seite: Berlin Numeracy Test (PGID 6540924)

We will ask you now some statistical questions: Please state the right answer in percent. Out of 1000 people in a village 500 are a member of the choir. Out of these 500 members, 100 are men. Out of the 500 people that don't sing in the choir 300 are men. How big is the probability that a randomly picked man is a member of the

choir? Please state the right answer in percent (rounded). (q_10695167 - Typ 141)

Variablenname	Externer Variablenname	varchar (mit Typencheck: Ganzzahl)	X.BN.1.1
v_147	X.BN.1.1		

17 Seite: X.BN.1.2.a (PGID 6540925)**17.1 Seite: Berlin Numeracy Test-01a (PGID 6540926)**

Imagine we are throwing a five-sided dice 50 times. On average, out of these 50 throws how many times would this five-sided dice show an odd number (1, 3 or 5)? (q_10721818 - Typ 141)

Suppose you can go back to the past through the time machine and you would end at a random time between 2002 and 2012. You will receive ₹5000 as a start-up capital, you can deposit the money for five years, and the final amount you may receive will be the value of the principal after five years. (For example, if you land in 2008, then the ₹5000 will be invested as you indicated on January 1, 2008. Your payout will then be the value of your investment on January 1, 2013, exactly five years later.) How would you divide your ₹5000 into the following investments? (q_10700791 - Typ 143)

36.13 Seite: F3.C Nuclear Power Plants (PGID 6540963)

Nuclear power plants produce energy by splitting large atoms (mostly Uranium) into smaller atoms. Compared to the combustion of other energy carriers as for example gas, the yield is much higher per mass of fuel. In the process, however, radioactive waste is produced and has to be contained. Some people say that nuclear power plants are a cheap way of producing energy. How much would you agree with that? (q_10723180 - Typ 111)

36.15 Seite: F3.E Other technologies (PGID 6540965)

Consider the following pilot project of a state in collaboration with telecommunication firms: People who have not complied with court orders to repay the money (whether a small or big amount) were punished as follows: the firm changed these people's phone lines so that if someone calls them, the caller first hears a message that the person he/she is trying to reach has been blacklisted. The message then asks the caller to persuade them to comply with the court order. Only afterward they are connected to the person they wanted to talk to. How do you evaluate/view this proposal? (q_10723194 - Typ 111)

36.17 Seite: F3.E Other technologies -2 (PGID 6540967)

Another pilot project collects data not only on traffic violations, but also, e.g. whether payments are done in a timely manner, whether garbage is deposited correctly or whether the people behave well on social media platforms: whether they pay their online purchases on time or whether they honor reservations (taxis, restaurants, etc.) they made online. All these items are summarized in a score. People with a good score would get certain benefits. For people with a bad score certain services would be cut, e.g. they could not book high-speed trains anymore. You could also see the score of other people and thus know how trustworthy they are. How do you evaluate/view this proposal? (q_10723196 - Typ 111)
